Jesse O'Donoghue

Education	1996	Avoca Central School	Avoca, NY
	High School Diploma		
	1996 - 1998	Corning Community College	Corning, NY
	Major in Computer Information Sciences		
	2005 - 2006	New Horizons Computers	Lexington, KY
	Development class to achieve Microsoft Certified Solutions Developer status (Visual Basic .NET)		
	- Certification Achieved (VB.NET for Windows)		
	2012 – 2016	Bluegrass Community and Technical College	Lexington, KY
	Major in Computer Information Technologies with focus on Programming, Associates Degree earned		
	2020 – Present	University of North Carolina at Chapel Hill	Chapel Hill, NC
	Full-Stack Web Development coding bootcamp, certificate earned upon completion		
Technical Skills	HTML, CSS, JavaScript ES5 & ES6, Node.js, React, GitHub, Visual Basic .NET, Excel		

Projects

The Movie Search App

JavaScript, HTML, CSS, GitHub

In this collaborative project I helped create an interactive movie dashboard using the The Movie DB API to pull various movie information, the New York Times API to pull movie review information, and the FourSquare Places API to pull movie theater data close to the user's zip code.

<https://wilsoncollin7.github.io/project1/>

Password Generator

JavaScript, HTML, CSS, GitHub

In this project I created an app that asks a user to pick several criteria as well as a length to generate a random strong password. The password is then displayed in the text box.

<https://jesseodonoghue.github.io/password-generator/>

JavaScript Quiz Game

JavaScript, HTML, CSS, GitHub

In this project I created a timed quiz game powered completely by JavaScript with high score data being stored locally.

Work experience

2015 - Present

C4 Recovery Foundation

New Bern, NC

Director of Event Technology

- As Director of Event Technology, I am responsible for the maintenance and upkeep of all hardware both onsite at conferences and offsite at home offices. I am responsible for designing and maintaining the 7 websites associated with the company. I work closely with Marketing to ensure that needed software and social media accounts are all correctly configured. I plan and execute our monthly webinars using the Zoom platform, including editing of the video and deployment to our website. I am responsible for setting up all audio/video onsite at our 4 conferences.

2014 - 2015

Xerox, Inc

Lexington, KY

Sales Supervisor

- As a Sales Supervisor, I was responsible for setting goals, preparing reports, analyzing calls, and ensuring my team of 15 met or exceeded monthly sales quotas.

2009 - 2014

Prestige Delivery Systems

Lexington, KY

Independent Contractor

- As an Independent Contractor I sort, load, unload, and deliver office supplies to my assigned route each day. Routes consist of: Somerset, Whitley City, Burkesville, and Jamestown for Route 4; Georgetown, Paris, and Cynthiana for route 7; Frankfort, Midway, Lawrenceburg, and Versailles for Route 8. My current contract is for Chase Bank to run security bags from Lexington main office to Louisville main office, then pick up empty bags at Louisville main office and return to Lexington main office for drop off.

RE: Jesse O'Donoghue

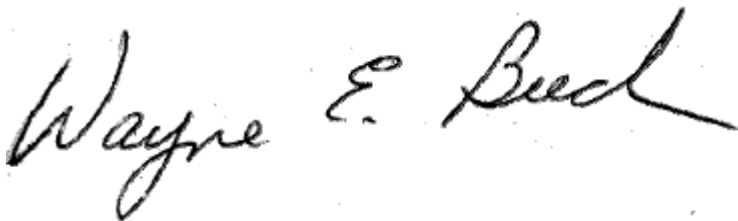

To Whom It May Concern:

I am an Adjunct Faculty member for KCTCS (Kentucky Community and Technical College System). Jesse was a student of mine in CIT161, the first Cisco networking course, during the Spring 2014 semester. I have been teaching for KCTCS (formerly Lexington Community College) since January 1999 and Jesse is one of the best students I have had during that time. I do not believe he missed a class. He was always on time for class, with assignments completed and ready to learn. He participated in class discussions, adding useful information, and asking good questions. Often labs in CIT161 are pretty hectic and during this time I observed Jesse assisting other students who were having difficulties with labs and he did an excellent job, not telling them what to do, but guiding them in the right direction. Jesse also tutored at least one student outside the classroom and that student's understanding and exam scores increased significantly.

I would highly recommend Jesse for any position.

If you need any other information please, or would like to talk to me about Jesse, feel free to contact me via the one of the email addresses listed below or call me at 859-312-4932.

Sincerely,

A handwritten signature in black ink that reads "Wayne E. Beech". The signature is written in a cursive, flowing style.

To whom it may concern:

I am writing this letter of recommendation on behalf of Jesse O'Donoghue, currently a student at Bluegrass Community and Technical College (BCTC) and a major in the Computer & Information Technologies (CIT) Program.

Jesse recently took my CIT150-J1E1 "Internet Technologies" class. In this class, Jesse showed himself to be an exceptional student. He regularly brought interesting questions and a unique level of insight to our class discussions, and was never hesitant to tackle tough problems I posed to the class. In terms of the formal course-work, Jesse scored an "A" on each assignment and exam during the semester, and was the only student to attend every single class meeting. Given these traits, it goes without saying that he earned strong "A" grade in the course.

I haven't met Jesse often outside of our class, but on those occasions when I would see him around the CIT computer lab classrooms before or after class, he showed himself to be an engaging student, exhibiting a friendly nature and an exuberant sense of humor.

Jesse is an asset to the BCTC student body and to the CIT Program as a whole, and I expect to hear good things about him in the upcoming semesters. I would highly recommend him as a promising and hard-working employee to potential employers.

If you have any questions, please don't hesitate to contact me.

Richard King
Professor, Computer & Information Technologies Program
